PURPOSE:

To establish guidelines for the effective and standardized use of whiteboards in patient rooms as a tool to enhance communication between healthcare providers, patients, and their families, while maintaining patient privacy and confidentiality.

DEFINITIONS:

White board - a writable surface placed in patient rooms used for communication between healthcare providers, patients, and their families, displaying information related to the patient's care plan, daily goals, and other relevant updates.

RESPONSIBILITY:

Head Nurse and Staff Nurse

POLICY:

1. The white board shall include essential patient information:
 - Room number
 - Staff Nurse assigned and shift schedule
 - Diet and allergies
 - Plan of care which includes diagnostic tests to be done, procedure, and nursing priorities within the shift
 - Activities and restrictions
 - Reminders and instructions for special endorsements
 - Physicians
2. The white board shall be updated at the end of each shift to ensure it accurately reflects the latest information about the patient's care plan, goals, and any significant changes in their condition or treatment.
3. Use clear, straightforward language without medical terms or abbreviations, and organize information with bullet points or numbered lists to ensure it is easily understood by patients, their families, and the care team.
4. Only the Head Nurse or the Nurse in-charge shall allowed to input details on the whiteboard.
5. The Head Nurse shall review whiteboard usage and updates to ensure policy adherence.
