Document Title:	RECORDING AND REPORTING OF COLLECTION, STORAGE, ISSUED AND SHARED BLOOD AND BLOOD PRODUCTS	

PURPOSE:

To document all blood units collected, stored, and issued.

SCOPE:

Applies to all the Blood Bank Section Staff of the Laboratory Department of Dr. Pablo O. Torre Memorial Hospital (DPOTMH)

PERSON RESPONSIBLE:

Medical Technologists

GENERAL GUIDELINES:

- 1. A system for recording and reporting the collection, storage, and distribution of blood and blood products shall be available.
- 2. All collected blood units from voluntary blood donors shall be recorded on the "Serial Number Logbook" provided and encoded on the Blood Bank E-System.
- 3. All blood units stored in the blood bank shall be included in the daily inventory and documented on the provided logbook.
- 4. All blood units shall be stored at the specified temperature. Blood units shall not be left outside of designated temperature storage areas for more than 30 minutes. Otherwise, it will be considered wastage.
- 5. All issued blood components to the station shall be documented in the tracer logbook provided.
- 6. Blood Bank shall have monthly, quarterly, and annual reports on the collection, storage, and issue of blood units for transfusion. Blood Bank shall provide a copy of the reports to the Lead Blood Service Facility and to the Department of Health (DOH).

Document Title:	RECORDING AND REPORTING OF COLLECTION, STORAGE, ISSUED AND SHARED BLOOD AND BLOOD PRODUCTS	

PROCEDURE:

- 1. The Medical Technologist logs all collected blood units in the "Blood Serial Number" logbook.
- 2. The Medical Technologist does daily inventory of blood units stored in the Blood Bank, logs them on the "Daily Inventory Logbook" according to blood type, and takes note of the name of the patient, serial number, expiration date, component, and blood center from which the blood was obtained.
- The Medical Technologist issues the blood units for transfusion. The Medical Technologist and the Nurse-in-Charge check the label and details on the blood unit if they coincide with the cross-matching and transfusion forms of the blood to be released.
- 4. The Nurse-in-charge logs on the tracer logbook provided for units released for transfusion.
- 5. The Medical Technologist prepares monthly, quarterly, and annual reports on blood collection and units issued for transfusion.
