Document Title:	RETRIEVAL OF USED VIALS AND BOTTLES

PURPOSE:

- 1. To establish a process whereby used vials and bottles are retrieved.
- 2. To ensure that received medicines are given to the patient.
- 3. To avoid the use of used vials for counterfeit drugs.

LEVEL:

Pharmacists, Pharmacy Technician and Nurse

DEFINITION OF TERMS:

Vials are small bottles or containers made from either plastic or glass. They are used to store medicines in liquid form, and they can even store powders or tablets.

POLICY:

- 1. Drugs contained in vials and bottles must be dispensed with an identified Riverside Pharmacy logo stamp.
- 2. Empty vials and bottles must be placed in a designated receptacle in the station for easy retrieval by the pharmacist.
- Retrieval of empty vials and bottles from stations shall be done by the pharmacist in the course of unit-dose drug distribution system and/or by the pharmacy dispatcher in case the pharmacist on-the-floor is not available.
- Empty vials and bottles must be segregated, cleaned, and wrapped with paper by the pharmacy technician and shall be sent to Sterilization and Reprocessing Unit for sterilization.
